Kikuchi Onsen

Japan's Top 100 Hot Springs©

Kikuchi's townscape has remained intact since the Heian period, and with features like the Noh theater found on Gosho (Imperial Palace) Street, the town is filled with a certain traditional atmosphere. The hotels and inns in the area are also framed by views of Mt. Shiroyama, and the smooth spring waters of our hot springs enjoy are popular among visitors.

効能

Our source has an average temperature of 45°C, producing hot springs that feel pleasant to people. Our hot springs have an extremely high alkalinity that measures 9.0 or greater on the pH scale, and our hot springs include minerals and other components that are gentle on your skin. Our hot springs also include the moisturizing component known as metasilicic acid, producing milky water that makes your skin feel moist.

Special Value 3-Ticket Set for Area Baths

- *A set of three tickets for area baths.
- *Please bring your own towels. (Towels for rent and sale are available)
- *Please note that depending on the circumstances of the facility, use may not be possible during hours of operation.
